

Friday 8/7 - Saturday 16/7/2011**COME TO LIFE**

"Come to Life" is a special program, curated by Margarita Stavragi, that will be presented at the [Archaeological Museum of Messenia](#) for 1 week (8-16/7/2011), during the official opening hours of the museum.

Margarita Stavragi writes about the concept of this presentation:

“The archaeological space and ancient myth become inspiration and action of art in the selected series of videos.

Space comes to life through the search of bodies at the residues of time and stimulates the activation of memory.

From the other hand, the emersion of myth through time is translated to poetic images and rhythms, and it swings between truth and dream.”
